October 30, 2023

To whom it may concern:

The Office of Superintendent of Public Instruction (OSPI) is providing the accompanying excel file to county assessors for the purpose of defining two of the three metrics of maximum allowable school district enrichment levies for the 2024 collection year.

ESSB 5313, passed in 2019, limits enrichment levy collections in calendar year 2024 to the lesser of (a) per pupil as increased by inflation (defined below), (b) \$2.50 of assessed valuation, or (c) the school districts actual voter approved levy. These changes have been codified in RCW 84.52.0531. The file provided contains the maximum allowable levy under the parameters of (a) and (c) as outlined above.

- (a)(i) Per Pupil:
 - \$2,500 for districts with less than 40,000 annual full-time equivalent students.
 - \$3,000 for district with greater than or equal to 40,000 annual full time equivalent students.
- (ii) Inflation: 5.4% CPI for CY 2024:
 - \$3,149.69 for districts with less than 40,000 annual full-time equivalent students.
 - \$3,779.63 for districts with greater than or equal to 40,000 annual full-time equivalent students.

Calendar Year 2024 MAXIMUM Levy per pupil per district outlined in attached file.

It is under the authority of RCW 84.52.0531 (6) that OSPI is allowed to define the pertinent data necessary to carry out the provisions of the new limitations of school district enrichment levies. Please consider the attached file the certified maximum values for per pupil levy and voter approved levy for the 2024 collections.
