

**Example 2** (utilize “Trusts – Step by Step” when needed)

1. Life estate by deed? No
2. Revocable? Unable to determine
3. Settlor or creator of trust? Unable to determine
5. Lifetime beneficial interest in the property? Unable to determine

This example was submitted to show that all trusts are different. This trust does not meet the qualifications for the exemption program.

It appears that it was written more for the intent of preserving the land, than retaining the rights of the grantor. But had it been submitted with an exemption application for approval, this would still need to be reviewed and approved or denied appropriately.
